REALIZE

**THE QUALITY**

WITH OUR STRENGTH

[www.bagsanhidrolik.com.tr](http://www.bagsanhidrolik.com.tr)

## Our Policy

Creating a corporate culture by providing "creative solutions" and ensuring that the necessary training and development activities and training actions have a competitive advantage and carried out in accordance with the strategy established by our company, which aims to become a "global brand" in this sector.

To recruit the right candidates to the company by establishing an effective measurement / evaluation system.

Determine successful performance by establishing objective and understandable evaluation systems and implementing methods of material and moral appreciation and recognition, to provide employees with sustainable motivation and satisfaction, to create an understanding of management based on respect for human beings and the application of ethical values.

## About Us

Since 1988, BAĞSAN İŞ MAKİNELERİ has been providing services to all over in the world. Located in Konya based in the construction machinery sector. Our company, which is ready and willing to embrace change, is committed to quality and innovation, continues to produce with a strong and committed team, and provides customer satisfaction.

In order to increase quality and efficiency, the understanding of "ensuring quality: it is the responsibility of the one who does the work, not the one who controls it" appears very important. BAĞSAN İŞ MAKİNELERİ employees should "aim for the satisfaction of internal and external customers, and work with sincerity and selflessness " we must constantly improve our quality, reduce costs by preventing all kinds of waste, losses, waste and re-processes, and take care of Environmental Protection in all our activities.

In order to continuously improve our quality, we should be able to manage information and equip our employees with the necessary knowledge and abilities by paying attention to the training of our employees. We must cooperate with our customers and suppliers on quality.

## OUR QUALITY IS OUR PRIDE

## MINING VEHICLES

### TMK 115 TELESCOPIC

**Telescopic 40° right and left swivel**

**LIFTING HEIGHT 7 mt.**

**CRUSHER HEAD APPARATUS**

**4 SPEED 4X4**

**WALKING SYTEM HYDROSTATIC**

**ARTICULATION MOVEMENT**

**DIESEL FUEL**

**TÜMOSAN MOTOR**

**ENGINE POWER 75 HP**

**CABIN CONDITION IS OPTIONAL**

**COLOR CONDITION IS OPTIONAL**

**TIRE SIZES 12.5/80.15-3**

**AIR CONDITION IS OPTIONAL**

### Sectors That Can Use

It is used in the crushing process in the underground and above-ground mining sector it contains a sensitive crushing apparatus installed on the front telescope. It can shovel the object it brokes with the bucket underneath.

## GRK 115 MINING TRUCK

LOAD CARRING CAPACITY 15 TONS

4 SPEED 4X4

WALKING SYTEM HYDROSTATIC

ARTICULATION MOVEMENT

DIESEL FUEL

TÜMOSAN MOTOR

ENGINE POWER 115 HP

CABIN CONDITION IS OPTIONAL

COLOR CONDITION IS OPTIONAL

TIRE SIZES 16.70-20

AIR CONDITION IS OPTIONAL

### Sectors That Can Use

It is a vehicle used in the underground and above-ground mining sector, that can carry broken objects and discharge loads thanks to its damper.
